This message was undeliverable due to the following reason(s):

Your message could not be delivered because the destination computer was unreachable within the allowed queue period. The amount of time a message is queued before it is returned depends on local configuration parameters.

Most likely there is a network problem that prevented delivery, but it is also possible that the computer is turned off, or does not have a mail system running right now.

Your message was not delivered within 6 days:  
Host 124.27.32.221 is not responding.
