

# CS 7123 Research Seminar

## Term Paper

**Due Date:** check [learn.utsa.edu](http://learn.utsa.edu)

As discussed in class, you will prepare a technical paper based on the dissertation you presented.

If you are a second time taker, you will further work on your research project and submit your findings as a technical paper...

### **Objectives:**

Use and learn Latex and Bibtex, and practice writing a full technical paper.

### **What to do/submit:**

Your paper should have 4-5 pages, include at least one figure. Submit it as pdf file.

Your paper may focus on one specific problem in the dissertation, and it can be structured as follows:

Title

Abstract

Introduction

Related Work

Proposed... method/solution/algorithm....

Performance Evaluation experimental results...

Conclusions and Future Work

References
