

CCTAAGGTTAGG

The image displays a DNA sequence logo for the sequence CCTAAGGTTAGG. The sequence is written in large, bold, colorful letters: C (blue), C (blue), T (red), A (green), A (green), G (orange), G (orange), T (red), A (green), A (green), G (orange), G (orange). Below each letter, there are horizontal bars of varying heights and colors, representing the relative frequency of each nucleotide at that position. The colors used are blue for C, red for T, green for A, and orange for G. The sequence is CCTAAGGTTAGG.
