CS 2213
Advanced Programming
Ch 11 – Symbol Tables

Ch 11 is optional.

We will cover this chapter later if time permits

Turgay Korkmaz

Objectives

- To understand the technique of **hashing** and how it applies to maps.
- To appreciate that **pointers to functions** can be interpreted as data values in C.
- To be able to use function pointers in the implementation of **callback** and **mapping** Functions.
